

BGS Support Package:

Hope Seed's BGS Support Package will supply you with all the information, resources, and activities you need to explore the Bible Garden School program and what it is doing in the fight against world hunger. We want your kids to be excited about helping other children in the world!

Take it as far as you would like to go...

Be as creative and expansive as you want to be with the BGS information. Use our support package to fit your needs. You can simply adopt our program as a mission project for your kids, or you can take it a step further and use this information to design academic lessons or entire units around the topics of nutrition and world hunger.

Materials Included:

BGS Poster- Display a dynamic poster in your classroom that will remind your kids that they are a part of the solution for a serious world problem. By supporting the Bible Garden School program you and your children are helping lead the fight against world hunger!

Hope Seeds DVD- Show your kids a powerful 5 minute DVD that will demonstrate how the Hope Seeds Organization is impacting the world through its seed ministry and its Bible Garden School program.

The Gardener's Glove- Help your kids connect personally to hunger issues by reading them five short stories about children in various developing nations and their struggles with hunger and poverty. Use your Kindness Cube to explore how their situations can be improved or even solved.

Kindness Cube- This is a fun and interactive visual tool to use in your classroom or VBS setting to help your children examine hunger issues, hunger facts, and what Bible Garden School is doing to help.

Instructions for Kindness Cube- Get your kids involved and excited about helping others by giving them the opportunity to construct their own Kindness Cubes. This art project can serve as a visual reminder that there are people in the world that need our help...all we have to do is be kind and care.

Bible Verses- Be equipped with important Bible verses that will help inform your children on what God says about gardening and helping others.

Garden Project - Go Green! Teach your kids how to recycle a boring everyday item into a fun container for plants to grow.

Art Project with nature- Explore nature and all of its beauty. Provide your kids with a hands-on art activity that will help them examine the natural world.

Coloring Sheet- This coloring page is a fun art exercise for your kids to complete and it can be used in an additional activity that will help motivate your kids to help other children in the world.

Hunger Resource Page- Take it to the next level. This page contains a list of educational websites that are endorsed by the Food and Agriculture Organization of the United Nations (FAO). These websites will provide you with valuable information on hunger, various activities, and free lesson plans on hunger related topics that are adapted for all ages.
