

10 – How do we pick the right seeds?

10 – How do we pick the right seeds?

- We cannot grow just any kind of seed in our garden. We need to pick plants that will grow in our area.
- We need to pick good, healthy seeds so we get good, healthy crops.
- We need to have a good variety of plants so we can get good nutrition from the plants we eat.

God's Word: "God is the One who gives seed to the farmer. And he gives bread for food. And God will give you all the seed you need and make it grow. He will make a great harvest from your goodness."

2 Corinthians 9:10

*Seeds of faith are sown in the hearts of people so they too can grow. The faith in Jesus which grows will produce acts of kindness and love. God's grace is the only thing that can make our goodness grow. Our seeds of faith come from Him and His grace helps us know Him better. Remember to thank God for His wonderful love for us!

Activity: (Materials – crayons or colored pencils)

Do Activity Card Ls. 10

Activity Card Ls. 10

Draw or list some good seeds God plants in you

Good Seed for Good Gardens
